Red Book, Pamphlet on Speakers and How To Organise a Public Meeting, Literary Photograph to Meet

By Shomit Sirohi

Introduction
By Alain Badiou

Very happy to see a simple meeting platform organised and simple meeting unity being practiced. I also mean see it as Greek historicism in Hyppolite, the formation of a council which then is simply how we sit

down and wait for the meeting to be done in a council where they collect and perhaps disperse and finally collect again to address each other as in fact it is Stikhinost to diffuse and then fuse and finally address the leaders.

I. Speakers and Platform, Section and Description of Where and When it is Done

In fact one can tell in a diagonal to the person standing in the park that there are many such literary figures in the park nearby or in fact in the kiosks nearby which then is a organising principal.

II. After Addressing and Assembling, how to Respond to Calling

Now imagine a general assembly, which then calls for the section to form, and the leader to appear and be addressed.

III. Speakers – Leon Trotsky and Lenin, even Mao

In fact we listen to such graceful speakers.

Part II Red Book

I. Chinese language for avant-garde news tracking the Event
